PROFESSIONAL EXPERIENCE

Client Manager Intern

Jan 2023 - Feb 2023

Yingda Securities Co., Ltd., Beijing, China

- Supported front-desk operations by handling client enquiries, processing commission-setting requests, and providing basic investment information, helping ensure efficient and smooth counter service delivery.
- Reviewed eligibility documents for non-face-to-face account opening and processed 34 valid online account applications in compliance with internal procedures and regulatory requirements.
- Assisted with periodic client risk reviews and anti-money-laundering monitoring by verifying and escalating 60+ compliance cases, supporting the implementation of branch-level risk control and compliance procedures.

Financial Audit Intern

Jan 2022 - Feb 2022

Baker Tilly China Certified Public Accountants (Special General Partnership), Beijing, China

- Supported IPO due diligence for a high-tech enterprise by interviewing suppliers, customers, and affiliates across three companies, drafting interview outlines, and documenting key findings to help verify transaction authenticity.
- Assisted in internal control evaluation testing for an asset management company across 56 control points in six areas, including corporate governance, organisational structure, and development strategy.
- Identified three major internal control deficiencies through staff interviews and reviews of vouchers and policy documents, and supported the development of remediation recommendations.

Consulting Intern

Jul 2021 - Aug 2021

Ernst & Young (China) Advisory Limited, Shanghai, China

- Supported compliance testing of a listed company's equipment procurement process by using VLOOKUP to review 500 documents, 749 shipping samples, and 276 signed orders, identifying 15 process risks and proposing three optimisation recommendations, one of which was recognised by the project team.
- Assisted a high-tech enterprise with the registration and review of 32 accounting vouchers, electronic receipts, and invoices, and participated in a physical count of 31 equipment items to support financial data accuracy.
- Independently researched operating updates and policy developments across 31 listed companies, producing structured research reports to support management consulting analysis and industry benchmarking.

PROJECT EXPERIENCES

Research on the Agricultural Support Model of Rural Commercial Banks A Case Study of Hunan Province

Project Leader | Mar 2021 - Mar 2023

- Led a student research team by coordinating task allocation, literature review, and data synthesis, ensuring research quality and progress across all stages of the project.
- Conducted literature review and field research on rural commercial banks in Hunan, examining rural financial service models, inclusive finance practices, and rural credit system development to identify practical approaches to supporting agricultural development.
- Produced four research reports and published a sole-authored paper on financial innovation in rural commercial banks under rural revitalisation.

Tata - Data Visualisation: Empowering Business with Effective Insights Job Simulation

March 2026

UK Online Retail Performance Analysis and Growth Strategy Research

- Analysed UK online retail transaction data by translating business and customer behaviour questions into key metrics including regional revenue, monthly sales trends, customer concentration, repeat purchase rate, and repurchase cycle.
- Cleaned data in Excel and built Power BI dashboards to identify revenue-driving regions, high-value customers, and underperforming markets, delivering recommendations on marketing focus and customer growth strategy.

Commonwealth Bank - Introduction to Data Science Job Simulation

March 2026

Australian Supermarket Transaction Data Modelling and Business Analysis

- Analysed three years of Australian supermarket transaction data using MySQL, Navicat, and Power BI, covering data cleaning, dimensional modelling, and visual business analysis.
- Built a five-dimension analytical framework across customer, payment method, product, store, and time, identifying non-member revenue opportunities, product sales-volume versus revenue patterns, and store risk signals, and translating findings into recommendations on customer operations, product optimisation, and store management.

TECHNICAL SKILLS

- **Office Productivity:** Microsoft Word, Excel and PowerPoint.
- **Data Analysis & Modelling:** MySQL, Navicat, Python and R | data processing, statistical analysis and modelling
- **Data Visualisation:** Power BI | dashboard development, business reporting
